

Announcing - Obsolescence of IDS 4600L Touch Monitor

Obsolete Product Information

In order to stay focused on our core value to provide customers with simplified offerings and prices that deliver the best combination of value, product features and competitive pricing, we are announcing the obsolescence of the Elo Interactive Digital Signage (IDS) 4600L touch display. We make every effort to minimize product changes, but at times changes are dictated by market conditions and component availability. The 46-inch size of the 4600L is not substantially different than the 42-inch Elo IDS touch displays and in light of the newly launched 4201L products, we feel that customers will find the price-value proposition of the new 4201L IDS touch displays more appealing.

The new 4201L has significantly advanced features: 3.1" thicknesses, bright 700 NIT display, fast, compute modules and built-in RFID antenna with a display area almost equal to the obsolete 4600L. For customers who would want more screen area, the Elo 5500L IDS touch display with an LED backlight panel is an excellent choice.

Obsolete and Replacement Products.

Listed below are the affected Elo part numbers and the recommended replacement parts.

Obsolete Part Description	Obsolete Part Number	Alternatives	Recommended Replacement Part Description	Recommended Replacement Part Number
ET4600L-8UWA-0-GY-G	E960985	42" IntelliTouch	ET4201L-8UWA-0-GY-G	E561836
		55" IntelliTouch	ET5500L-8CWA-0-G	E053414
ET4600L-CUWA-0-MT-GY-G	E536712	42" Optical	ET4201L-CUWA-0-MT-GY-G	E107085
		55" Optical	ET5500L-CUWA-0-MT-GY-G	E891542

When products are obsolete, every effort is made for a smooth transition:
