

Interactive Digital Signage Touch Displays (IDS Series):

IDS series will be enhanced with 32" comprising of 10 touch points will be out in the coming quarter.

42" continues to offer both single touch and optical touch options. Single touch has to advantage of easy handling for users who are not really accustomed to two points touch. White color bezel will be offered to fit for medical environment and currently only model no. 4201L will be offered in white color only.

46" will be obsolete from the IDS list and replaced by 55". For large size 55" and 70", 6 touch points will be out soon. Model no. would be 5501L and 7001L which will be replacing the older models.

To help save the trouble, here is a quick check table for you.
